

INFORMATION POLICY

The Exchange strives to ensure that its activities are as transparent as possible for shareholders, investors and other stakeholders. In December 2015, the Exchange's Information Policy was adopted.

The document is available on the MOEX website at:

The information policy is a body of rules that the Exchange (including members of its management bodies, officials and employees) adheres to when disclosing information and/or providing information to shareholders and other stakeholders.

The information policy provides additional opportunities for stakeholders to exercise their rights and interests and is also aimed at improving the Exchange's information interaction with all stakeholders.

Methodology used by the Exchange to assess compliance with the corporate governance principles set out in the Bank of Russia's Corporate Governance Code

The recommendations of the Bank of Russia were applied as the methodology used by the Exchange to assess compliance with the corporate management principles set out in the Bank of Russia's Corporate Management Code.

Among other things, the assessment analyzed the compliance of the Exchange's corporate management practices and internal procedures with the principles and recommendations of the Bank of Russia's Corporate Management Code.

The results of the assessment are contained in the Report on compliance with the principles and recommendations of the Corporate Management Code, which is a part of this Annual report.

Over the past years, the Exchange has been working to bring its corporate management practices in line with the Bank of Russia's Corporate Management Code. The annual analysis of the results of the corporate management assessment shows a tendency to increase the number of principles and recommendations followed.
